# U.S. EXPORTS OF DAIRY BREEDING CATTLE IN CALENDAR 1973

U.S. exports of dairy breeding cattle during 1973 were the highest on record, totaling 33,987 head, according to official USDA veterinary export certificates (Table I). This represents a gain of 15,311 head over the 1972 total of 18,676 head, and 19,464 head above 1971 exports of 14,523 head. The next highest year on record for U.S. dairy breeding cattle exports was 1966, when the total was 23,515 head. According to the Bureau of Census data, the FAS value of dairy breeding stock exports in 1973 totaled $29.7 million, an increase of $19.1 million over the $10.6 million total FAS value for calendar 1972. The increase in value of 1973 exports over those of 1972 resulted from the export of more dairy animals and higher prices per unit for quality animals.

Holsteins continued to rank as the major dairy breed exported with 31,750 head exported in 1973, and 17,145 head in 1972, for an increase of 14,605 head or 85.2 percent. Holsteins accounted for 93.4 percent of total dairy breeding cattle exports in 1973, compared with 91.8 percent in 1972.

Exports of Brown Swiss dairy breeding cattle increased to 1,633 head in 1973, compared with 868 head in 1972.

Jersey exports increased to 302 head in 1973 from 110 head in 1972, while Ayrshire exports decreased to 183 head in 1973, compared with 489 head in 1972.

The 1973 increase in total exports was primarily due to increased sales to Mexico, Italy, the Republic of Korea, Canada, and Hungary.

Exports of dairy breeding cattle to Mexico were 18,436 head in 1973, increasing 61 percent from 11,466 head in 1972. Exports to Italy increased from 770 head in 1972 to 2,706 head in 1973; to the Republic of Korea from 674 head in 1972 to 2,446 head in 1973; to Canada from 1,943 head to 3,424 head; and to Hungary from 197 head to 1,473 head.

Exports of male animals during 1973 totaled 1,406 head, an increase of 170 percent over the 1972 total of 520 head. The largest increase in bull sales in 1973 was to Italy, with a total of 715 head, compared with only 29 head in 1972.

During 1973, 44 States and Puerto Rico exported dairy breeding cattle, compared with only 39 the year before (Table 4). Wisconsin ranked first with 11,825 head, followed by California, 9,228 head; New York 1,580; Indiana, 344 head; and Minnesota, 1,182 head. U.S. dairy breeding cattle were exported to 49 countries during 1973.
